

OASIS FORMICA WORKTOPS CARE, CERTIFICATION and PRODUCT SAMPLES

Care for your worktop

Oasis Worktops are easy to maintain, simply use a damp cloth and a mild detergent or non-abrasive cleaner to keep the surface clean and hygienic.

Stubborn stains should be removed immediately (the use of abrasive cleaners should be avoided).

Whilst your worktop is resistant to high temperatures you should always put hot objects on to heat resistant mats or trivets. Our gloss finish will enhance and compliment the effect of the décor, however it is advisory to take extra care with gloss finish worktops, as they are more prone to marking. Try to avoid sliding objects across the surface of the laminate. To prevent damaging the surface, always use a chopping board for preparing food. Full details for care and maintenance can be found in the Care Guide included with every worktop or discuss with your retailer.

Care for your Environment

ID Surfaces only supply FSC certified wood products. This means they only use either timber traceable to a forest that is managed sustainably, or recycled waste wood diverted from landfill. They monitor the use of water and energy constantly to identify opportunities to reduce water usage and have invested heavily in processes that generate energy from woodbased carbon neutral fuel, significantly reducing carbon emissions. They are BlueGreen certified as a supplier of Carbon positive chipboard.

Quality

Awarded the furniture Industry Research Association (FIRA) Gold Certificate for consistency in performance, Oasis worktops are manufactured and tested to BS EN438. 1:2005, and are subject to a programme of continuous quality control to ensure product quality and total satisfaction.

Samples Swatches

For worktop samples, see the KRONOSPAN website & email your request to: OASIS SAMPLES

Please specify the COLOUR, NAME / CODE and TEXTURE, and give your NAME, FULL POSTAL ADDRESS and POST-CODE, or PHONE 08457 298298.
